Austin, Gov. John Connally's future plans are the talk of the capital.

On his decision hinges the political future of many Democratic candidates for numerous federal and state offices.

No one in his party wants to run against the popular Democratic party leader and top vote-getter, but there is talk of his possible retirement This would change the complexion of many races in 1966.

Connally has indicated that he will make his plans known before the General Election in November. This in order that other state political figures, whose moves depend on his, can set their own sails.

In the latter category are Lt. Gov. Preston Smith and Atty. Gen Waggoner Carr. Both want to run for governor.

A race by Smith and Car for the higher office naturally would place their own jobs up for grabs and plenty of candidates would file for these posts

Connally says that neither the four-year-term amendment, which will be voted on November 2, nor the possibility of a federal appointment will play a part in his dicision whether or not to retire.

Other speculation is that he may run for the U.S. Senate next year against the incumbent, Republican Senator John Tower. There also is talk that, regardless of Connally's decision US Senator Ralph Yarborough may enter the Governor's race next year. He could do this without relinquishing his present post.

Those who leave before getting past the contagious stage usually are returned quickly by health authorities. After "going over the hill," such patients usually are quaran-

ORANGE POLUTION State Water Polution Control Board has asked officials of the City of Orange to try again to get voter approval of a bond issue to provide funds for correcting the city's pollution of the Sabine River.

Orange voters recently turned down a \$3,000,000 bond issue by a mere 29 votes. It would have corrected the city's sewer troubles.

Mayor Neil Miller Jr. admits that the city's sewer system is polluting the river at six points within the city limits. He said the city must resubmit the matter to the voters. INTERSTATE HIGHWAY

More than 100 copies of the color film now are being made by the Department.

In discussing the film Herb Petry, chairman of the Highway Commission, said;"This is Texas as it really is a Funtier State... offering recreational attractions to suit ever taste. It features our forests, mountains, plains, seashore, caverns, lakes and many cultural attractions."

Said Tom Taylor, director of the Travel and Information Division, "Texas is so large that to depict its many wondrous attractions in a single 30-minute film is virtually impossible. This, therefore, is the first of a series designed to make Texas better known to both residents and outsiders as a recreational center."

First to sign up for a showing was the Texas Press Association TPA scheduled the film for its 15th Annual Advertising Convention in Galveston on September 11. Bob Warner, former newspaperman now a Highway Department information officer, will handle the Galveston present-

VISITORS GETS BREAK Free parking for tourists who wish to visit the state capitol has proved a boom.

Perennial parking problem around the capital for years has kept many visitors away. But no more

Where the Old Walton Building once stood, directly in front of the capital grounds 11th and Congress, the state has provided plenty of parking space exclusively for tourists. Two hours of free parking are furnished in a supervised lot.

Result is a noticable increase in the number of instate as well as out-of-state visitors.
